CORPORATE GOVERNANCE OVERVIEW AND GUIDELINES

1. Introduction

The Board of Directors of the Company has adopted these Corporate Governance Guidelines to assist the Board in the exercise of its responsibilities. The Board may modify or make exceptions to the Guidelines from time to time in its discretion and consistent with the duties and responsibilities owed to the Company and its shareholders.

2. Director Responsibilities

(a) **Oversee Management of the Company.** The principal responsibility of the directors is to oversee the management of the Company in the best interests of the Company and its shareholders. This responsibility requires that the directors attend to the following:

1. review and approve on a regular basis, and as the need arises, fundamental operating, financial, and other strategic corporate plans which take into account, among other things, the opportunities and risks of the business;
2. evaluate the performance of the Company, including the appropriate use of corporate resources;
3. evaluate the performance of, and oversee the progress and development of, senior management and take appropriate action, such as promotion, change in responsibility and termination;
4. implement senior management succession plans;
5. evaluate and approve the Company's compensation programs;
6. establish a corporate environment that promotes timely and effective disclosure (including appropriate controls), fiscal accountability, high ethical standards and compliance with applicable laws and industry and community standards;
7. oversee the Company's auditing and financial reporting functions;
8. evaluate the Company's systems and business to identify and manage the risks faced by the Company;
9. review and decide upon material transactions and commitments;
10. develop a corporate governance structure that allows and encourages the Board to fulfill its responsibilities;
11. provide assistance to the Company's senior management, including guidance on those matters that require Board involvement; and

12. evaluate the overall effectiveness of the Board and its committees.

(b) **Exercise Business Judgment.** In discharging their fiduciary duties of care, loyalty and candour, directors are expected to exercise their business judgment to act in what they reasonably and honestly believe to be the best interests of the Company and its shareholders free from personal interests. In discharging their duties, the directors normally are entitled to rely on the Company's senior executives, other employees believed to be responsible, and its outside advisors, auditors and legal counsel, but also should consider second opinions where circumstances warrant.

(c) **Understand the Company and its Business.** With the assistance of management, directors are expected to become and remain informed about the Company and its business, properties, risks and prospects.

(d) **Establish Effective Systems.** Directors are responsible for determining that effective systems are in place for the periodic and timely reporting to the Board on important matters concerning the Company. Directors should also provide for periodic reviews of the integrity of the Company's internal controls and management information systems.

(e) **Protect Confidentiality and Proprietary Information.** Directors are responsible for establishing policies that are intended to protect the Company's confidential and proprietary information from unauthorized or inappropriate disclosure. Likewise, all discussions and proceedings of the Board of Directors must be treated as strictly confidential and privileged to preserve open discussions between directors and to protect the confidentiality of Board discussions.

(f) **Board, Committee and Shareholder Meetings.** Directors are responsible for adequately preparing for and attending Board meetings and meetings of committees on which they serve. They must devote the time needed, and meet as frequently as necessary, to properly discharge their responsibilities. Directors who reside in or near the city where the Company holds a shareholders' meeting are expected to make a reasonable effort to attend such meeting.

(g) **Indemnification.** The directors are entitled to Company-provided indemnification through corporate articles and by-laws, corporate statutes, indemnity agreements and, when available on reasonable terms, directors' and officers' liability insurance.

3. **Director Qualification Standards**

(a) **Independence.** The Board will ensure that it has at all times at least the minimum number of directors who meet applicable standards of director independence. For members of the Audit and Risk Committee, director independence is to be determined in accordance with those legal and stock exchange independence standards applicable to the Company's Audit and Risk Committee. For other purposes, the Board will, from time to time, establish independence standards that (i) comply with applicable legal and stock exchange requirements and (ii) are designed to ensure that the director does not have,

directly or indirectly, a financial, legal or other relationship that, in the Board's judgment, would reasonably interfere with the exercise of independent judgment in carrying out the responsibilities of the director. The standards currently in effect are contained in Appendix 2.

(b) **Size and Skills of Board.** The Board believes that a Board comprised of 7 to 12 members is an appropriate size given the Company's present circumstances. The Board also will consider the competencies and skills that the Board, as a whole, should possess and the competencies and skills of each director.

(c) **Other Directorships.** The Board does not believe that its members should be prohibited or discouraged from serving on boards of other organizations, and the Board does not propose any specific policies limiting such activities, providing they do not reduce a director's effectiveness or result in a continuing conflict of interest. However, the Nominating and Governance Committee should take into account the nature of and time involved in a director's service on other boards in evaluating the suitability of individual directors in making its recommendations.

(d) **Tenure.** The Board does not believe it should establish director term or age limits. Such limits could result in the loss of directors who have been able to develop, over a period of time, significant insight into the Company and its operations and an institutional memory that benefits the Board as well as management. As an alternative to term and age limits, the Nominating and Governance Committee will review each director's continuation on the Board annually. This will allow each director the opportunity to confirm his or her desire to continue as a member of the Board and allow the Company to replace directors where, upon recommendation of the Nominating and Governance Committee, the Board makes a determination in that regard.

(e) **Separation of the Offices of Chair and CEO.** The Board will select a Chair of the Board in a manner and upon the criteria that the Board deems appropriate at the time of selection. The Board believes the offices of Chair of the Board and CEO should not be held by the same person.

(f) **Lead Director.** At any time when the Chair of the Board is not independent, the independent directors will select an independent director to carry out the functions of a lead director. This person will chair regular meetings of the independent directors and assume other responsibilities which the independent directors and the Board as a whole have designated.

(g) **Selection of New Director Candidates.** Except where the Company is legally required by contract, law or otherwise to provide third parties with the right to nominate directors, the Nominating and Governance Committee will be responsible for (i) identifying individuals qualified to become Board members, consistent with criteria approved by the Board, (ii) recommending to the Board the persons to be nominated for election as directors at any meeting of shareholders and (iii) recommending to the Board persons to be elected by the Board to fill any vacancies on the Board. The Nominating

and Governance Committee's recommendations will be considered by the plenary board but the recommendations are not binding upon it.

(h) **Extending the Invitation to a New Director Candidate to Join the Board.** An invitation to join the Board will be extended by the Chair of the Board when authorized by the Board.

(i) **Majority Vote Policy.** If the votes "for" the election of a director nominee at a meeting of shareholders are fewer than the number voted "withhold", the nominee will submit his or her resignation promptly after the meeting for the consideration of the Nominating and Governance Committee. The Committee will make a recommendation to the Board of Directors after reviewing the matter, and the Board will then decide within 90 days after the date of the meeting of shareholders whether to accept or reject the resignation. The Board will accept the resignation absent exceptional circumstances. The Board's decision to accept or reject the resignation will be disclosed by way of a press release, a copy of which will be sent to the Toronto Stock Exchange. If the Board does not accept the resignation, the press release will fully state the reasons for the decision. The nominee will not participate in any Committee or Board deliberations whether to accept or reject the resignation. This policy does not apply in circumstances involving contested director elections.

4. Board Meetings

(a) **Selection of Agenda Items.** The Chair of the Board shall propose an agenda for each Board meeting. Each Board member is free to request the inclusion of other agenda items and is generally free to request at any Board meeting the consideration of subjects that are not on the agenda for that meeting, although voting on matters so raised may be deferred to another meeting to permit proper preparation for a vote on an unscheduled matter (emergencies excepted).

(b) **Frequency and Length of Meetings.** The Chair of the Board, in consultation with the members of the Board, will normally determine the frequency and length of Board meetings; however, the ultimate power in this regard rests with the plenary Board. Special meetings may be called from time to time as required to address the needs of the Company's business.

(c) **Advance Distribution of Materials.** Information that is important to the Board's understanding of the business to be conducted at a Board or committee meeting will normally be distributed in writing to the directors reasonably before the meeting (with a goal of 7 calendar days) and directors should review these materials in advance of the meeting. Certain items to be discussed at a Board or committee meeting may be of a time-sensitive nature and the distribution of materials on these matters before the meeting may not be practicable.

(d) **Executive Session of Independent Directors.** An executive session of independent directors may be held following each meeting of the Board of Directors, at the discretion of the independent directors.

5. **Board Committees**

(a) **Key Committees.** The Board will at all times have an Audit and Risk Committee, a Compensation Committee, a Nominating and Governance Committee and a Sustainability Committee. The Board may, from time to time, establish or maintain additional committees or subcommittees as it deems necessary. The Board may delegate any of its powers to committees of the Board, except that it may not delegate the powers to fill Board vacancies, remove a director, change the membership or fill vacancies in a Board Committee, or remove or appoint officers who are appointed by the Board.

(b) **Committee Charters.** Each of the key committees will have a charter that has been approved by the Board. The committee charters will set forth the purposes, goals and responsibilities of the committees. The Board will, from time to time as it deems appropriate, but at least annually, review and reassess the adequacy of each charter and make appropriate changes. Each charter must address those matters required by applicable laws and stock exchange rules. The respective key committee charters are included in the appendices to this Manual as follows:

Audit and Risk Committee Charter – Appendix 6;

Compensation Committee Charter – Appendix 7;

Nominating and Governance Committee Charter - Appendix 8; and

Sustainability Committee Charter – Appendix 9.

(c) **Assignment of Committee Members.** The Nominating and Governance Committee will be responsible for recommending to the Board the persons to be appointed to each committee of the Board. The Audit and Risk, Compensation, Nominating and Governance, and Sustainability Committees will have a minimum of three directors. Other committees shall have at least one member or the minimum number of members required by applicable law and the Company's charter documents.

(d) **Selection of Agenda Items.** Each committee Chair, in consultation with the other committee members, will develop the committee's agenda.

(e) **Frequency of Committee Meetings.** The Chair of each committee, in consultation with the other committee members, will determine the frequency of the committee meetings consistent with any requirements set forth in the committee's charter. Special meetings may be called by any member from time to time as required to address the needs of the Company's business and fulfill the responsibilities of the committees.

6. **Director's Access to Management and Independent Advisors**

(a) **Access to Officers and Employees.** All directors have, at all reasonable times and on reasonable notice, full and free access to officers and employees of the Company. Any meetings or contacts that a director wishes to initiate should normally be arranged

through the CEO or the CFO. The directors will use their judgment to ensure that any such contact is not disruptive to the business operations of the Company. The directors are normally expected to provide a copy or otherwise inform the CEO or CFO of any communication between a director and an officer or employee of the Company.

(b) **Access to Independent Advisors.** The Board and each committee shall have the power to hire and consult with independent legal, financial or other advisors for the benefit of the Board or such committee, as they may deem necessary, without consulting or obtaining the approval of any officer of the Company. Such independent advisors may be the regular advisors to the Company. The Board or any such committee is empowered, without further action by the Company, to cause the Company to pay the appropriate compensation of such advisors as established by the Board or any such committee.

7. Director Compensation, Stock Ownership and Stock Trading

(a) **Role of Board and Compensation Committee.** The form and amount of director compensation will be recommended by the Compensation Committee and approved by the Board in accordance with the general principles set forth herein and in the Compensation Committee Charter. The Compensation Committee will also conduct an annual review of the compensation of the Company's directors and make recommendations to the Board.

(b) **Form of Compensation.** The Board believes that directors should be provided with incentives to focus on long-term shareholder value. The Board believes that including equity options as part of director compensation helps align the interests of directors with those of the Company's shareholders.

(c) **Amount of Compensation.** The Company seeks to attract exceptional talent to its Board. Therefore, the Company's policy is to compensate directors competitively relative to comparable companies. The Company's management will, from time to time, present a report to the Compensation Committee comparing the Company's director compensation with that of comparable companies. The Board believes that it is appropriate for the Chair of the Board and the chairs of the committees, if not members of management, to receive additional compensation for their additional duties in these positions. Directors who are also employees of the Company may receive additional compensation for Board or committee service if they are not already compensated at full industry rates in their capacities as employees.

(d) **Compensation for Director Service by Company Employee While Serving on Other Boards of Directors.** When any employee of the Company serves as a director of another company at the request of the Company or as the representative of the Company, that employee may not accept compensation from that other company for such service. If any such compensation is nonetheless received, it shall be received on behalf of and paid over to the Company.

(e) **Director Stock Ownership.** The Board believes that each director should acquire and hold shares of Company stock in an amount that is meaningful to shareholders and appropriate to each such director. Therefore, the Board, in consultation with each director, will establish a target for stock ownership, including deferred share units, by each director and a time period during which this target is to be met. In general, stock and deferred share units having a value (measured by purchase price or basis of stock and value of deferred share units at the time credited or market value, whichever is greater) equal to three times annual base cash compensation is an appropriate level of ownership, to be acquired over a period of not more than five years. The Board will periodically review the targets to take into account market circumstances.

(f) **Stock Trading.** Prior to purchasing or selling shares of Company stock, directors must advise the CEO, CFO or counsel for the Company so as to avoid trading at a time when there may be undisclosed material information and so that Company Spokespersons will be aware of such transactions and be able to respond to questions regarding changes in share ownership from shareholders and others.

8. Director Orientation and Continuing Education

(a) **Director Orientation.** The Board and the Company's senior management will conduct orientation programs for new directors as soon as possible after their appointment as directors. The orientation programs will include presentations by management to familiarize new directors with the Company's projects and strategic plans, its significant financial, accounting and risk management issues, its compliance programs, its code of business conduct and ethics, its principal officers, its internal and independent auditors and its outside legal advisors. In addition, the orientation programs will include a review of the Company's expectations of its directors in terms of time and effort, a review of the directors' fiduciary duties and visits to Company headquarters and, to the extent practical, the Company's principal properties.

(b) **Continuing Education.** To enable each director to better perform his or her duties and to recognize and deal appropriately with issues that arise, the Company will provide the directors with suggestions to undertake continuing director education, the cost of which will be borne by the Company. The Company will, to the extent practical, periodically schedule site visits by directors to the Company's principal properties.

9. Management Evaluation and Succession and Executive Compensation

(a) **Selection of CEO.** The Board selects the Company's CEO in the manner that it determines to be in the best interests of the Company. The Board, together with the CEO, will develop a clear position description for the CEO. The board will also develop the corporate goals and objectives that the CEO is responsible for meeting.

(b) **Evaluation of Senior Management.** The Compensation Committee will be responsible for overseeing the evaluation of the performance of the CEO and other members of senior management. The Compensation Committee will determine the nature and frequency of the evaluation, supervise the conduct of the evaluation and

prepare an assessment of the performance of the CEO, to be discussed with the Board. The Board will review the assessment to ensure that the CEO is providing the best leadership for the Company over the long- and short-term. The Compensation Committee will also discuss with the Board the recommendations of the CEO with regards to the compensation of the other members of senior management.

(c) **Succession of Senior Management.** The Compensation Committee will be responsible for overseeing an annual evaluation of senior management succession planning.

(d) **Expectations of Senior Management.** The Board will establish, and review on an annual basis, its expectations for senior management generally.

(e) **Executive Compensation.** Compensation of the CEO must be determined, or recommended to the Board for determination, by the Compensation Committee. The CEO must not be present during voting or deliberations. Compensation for all other members of senior management must be determined, or recommended to the Board for determination, by the Compensation Committee.

10. Code of Ethics

The Board of Directors, on the recommendation of the Nominating and Governance Committee, will adopt and maintain a Code of Ethics that will apply to the employees, officers and directors of the Company (Appendix 4). The Code of Ethics will meet the definition and coverage of a “code of ethics” under Item 406 of SEC Regulation S-K and other applicable laws and regulations.

11. Annual Performance Evaluation of the Board

The Nominating and Governance Committee will oversee an annual self-evaluation of the Board to determine whether it and its committees are functioning effectively. The Nominating and Governance Committee will determine the nature of the evaluation, supervise the conduct of the evaluation and prepare an assessment of the Board’s performance. This evaluation will be discussed by the Board.

12. Board Interaction with Shareholders, Institutional Investors, the Press, Customers, etc.

The Board believes that the CEO and his or her designees should normally speak for the Company. Individual Board members may, from time to time, meet or otherwise communicate with various constituencies that are involved with the Company. However, it is expected that Board members would do so with the knowledge of and, absent unusual circumstances, only at the request of the CEO.

The Board will give appropriate attention to written communications that are submitted by shareholders and other interested parties, and will respond if and as appropriate. Absent unusual circumstances, the Chair of the Board monitors communications from shareholders and other

interested parties, and will provide copies or summaries of such communications to the other directors as he or she considers appropriate.

13. Periodic Review of the Corporate Governance Guidelines

The Board will, from time to time, with or without recommendations of the Nominating and Governance Committee, review and reassess the adequacy of these Guidelines and consider any proposed changes.

14. Enhanced Shareholder Engagement

The Board of directors believes that regular and constructive engagement between the Board and the Company's shareholders on governance matters is of primary importance. Accordingly, the Board has adopted a Policy On Engagement With Shareholders On Governance Matters reflecting the foregoing, a copy of which is attached as Appendix 10.

The Company will ensure that a current version of the Governance Manual, inclusive of the Index, is posted on the Company's website.

15. Policy for the Recovery of Erroneously Awarded Incentive Based Compensation

The Board has adopted the Policy for the Recovery of Erroneously Awarded Incentive Based Compensation which is attached as Appendix 12. The Compensation Committee is responsible for the implementation and enforcement of this Policy.

APPENDIX 1

MATTERS REQUIRING BOARD APPROVAL (NON-DELEGATION POLICY)

This Policy identifies items that must be approved by the Board or a committee of the Board and are not delegated to management without Board approval. A general overriding consideration is that the directors are required under law to manage, or supervise the management of, the business and affairs of the Company. Accordingly, even if an action might fall outside these guidelines, management should consider whether the matter, nevertheless, should be referred to the Board for consideration.

The following is a list of items that officers must refer to the Board, or an appropriate committee thereof, for consideration. Under these guidelines, the “Threshold Amount” is equal to \$5,000,000 and an “Out of Budget Transaction” is a transaction that exceeds the Threshold Amount and that is not otherwise already part of the Company’s approved operating budget.

1. The approval of annual corporate budgets.
2. The approval of all financial information and other disclosure documents that are required by law to be approved by the Board before they are released to the public.
3. Allotment of any securities. This includes shares, options, warrants or other convertible or debt securities, and the payment of a commission to any person as consideration for purchasing securities of the Company or providing purchasers for any such securities. Securities may be issued by executive officers where previously allotted by the Board (e.g. exercise of previously allotted options and warrants).
4. Entering into transactions of a fundamental nature such as amalgamations, mergers and material acquisitions or dispositions.
5. Agreeing to redeem, purchase or otherwise acquire any of the Company’s shares.
6. Entering into any agreement or commitment to acquire or dispose of assets that are material to the Company including, but not limited to, those that are an Out of Budget Transaction.
7. Entering into, or making a material modification of, any agreement or commitment to become liable for any indebtedness, including the granting of a guarantee or similar standby obligation, if (a) the amount of such indebtedness is an Out of Budget Transaction or (b) any assets of the Company are made subject to a security interest in an Out of Budget Transaction.
8. Committing to making any capital expenditure which is an Out of Budget Transaction.

9. Entering into any contract, agreement or commitment out of the ordinary course of business if such agreement involves a commitment of financial resources which exceeds the Threshold Amount.
10. Adoption of hedging policies.
11. Entering into any agreement with an officer, director or 10% shareholder of the Company or any parent or subsidiary of the Company outside of the ordinary course of business.
12. Entering into or amending any agreement with Hunter Dickinson Services Inc. (“HDSI”), and investing in any company in which HDSI and/or its principals hold in excess of 20% of the voting securities.
13. Terminating, suspending or significantly modifying any material business activity or business strategy of the Company.
14. Undertaking a new business activity that requires an allocation of resources that exceed the Threshold Amount.
15. Making any material change to a business or strategic plan that has been approved by the Board.
16. Initiating or settling any legal proceeding involving a payment that may exceed the Threshold Amount.
17. Employing or terminating the Company’s independent auditor.
18. Hiring or terminating the employment, or determining the compensation, of any person who is an executive officer of the Company.
19. Offering any material employment or consulting terms to any individual or entity which are not customary for the Company. This determination is to be made by reference to terms of employment or consultancy that have generally been offered to other employees or consultants in similar positions or with similar status.
20. The approval of a request by the CEO or the CFO of the Company to serve on the board of another entity, other than not-for-profit entities or family businesses that in no material way compete with the Company or do any material business with the Company.
21. Any other matter specified by the Board as requiring its prior approval.

APPENDIX 2

DIRECTOR INDEPENDENCE STANDARDS

The following standards are to be used in determining whether a director is “independent” for purposes of determining independence from Management, including for determination of independence in selecting members of Board committees. These standards have been prepared by Canadian Securities Regulators, the NYSE American, the Toronto Stock Exchange, and the Securities and Exchange Commission. To be independent, a director must meet the requirements of all of the standards. Notwithstanding the foregoing, no director qualifies as an independent director unless the Board of Directors affirmatively determines that the director does not have a relationship with the Company that would interfere with the exercise of independent judgment.

This governance manual also uses the term “outside” director. An outside director is a director who is not independent under the applicable standards but who does not have full-time (or substantially full-time) employment with the Company or a remunerated consulting services relationship of a similar nature. For greater certainty, an outside director may be classified as outside but may not be independent where, for instance, that person owns (or represents a shareholder who owns) more than 10% of the Company’s shares.

NYSE AMERICAN SECTION 803A

“Independent director” means a person other than an executive officer or employee of the company. No director qualifies as independent unless the issuer’s board of directors affirmatively determines that the director does not have a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. In addition to the requirements contained in this Section 803A: (i) directors serving on audit committees must also comply with the additional more stringent requirements set forth in Section 803B(2) below [compliance with SEC Rule 10A-3]; and (ii) directors serving on compensation committees and, in the case of a company that does not have a compensation committee, all independent directors, must comply with the additional, more stringent requirements set forth in Section 805(c) below. The following is a non-exclusive list of persons who shall not be considered independent:

- (b) a director who is, or during the past three years was, employed by the company, other than prior employment as an interim executive officer (provided the interim employment did not last longer than one year);
- (c) a director who accepted or has an immediate family member who accepted any compensation from the company in excess of US\$120,000 during any period of twelve consecutive months within the three years preceding the determination of independence, other than the following:
 - (i) compensation for board or board committee service,

- (ii) compensation paid to an immediate family member who is an employee (other than an executive officer) of the company,
 - (iii) compensation received for former service as an interim executive officer (provided the interim employment did not last longer than one year), or
 - (iv) benefits under a tax-qualified retirement plan, or non-discretionary compensation;
- (d) a director who is an immediate family member of an individual who is, or at any time during the past three years was, employed by the company as an executive officer;
- (e) a director who is, or has an immediate family member who is, a partner in, or a controlling shareholder or an executive officer of, any organization to which the company made, or from which the company received, payments (other than those arising solely from investments in the company's securities or payments under non-discretionary charitable contribution matching programs) that exceed 5% of the organization's consolidated gross revenues for that year, or US\$200,000, whichever is more, in any of the most recent three fiscal years;
- (f) a director who is, or has an immediate family member who is, employed as an executive officer of another entity where at any time during the most recent three fiscal years any of the issuer's executive officers serve on the compensation committee of such other entity; or
- (g) a director who is, or has an immediate family member who is, a current partner of the company's outside auditor, or was a partner or employee of the company's outside auditor who worked on the company's audit at any time during any of the past three years.

NYSE AMERICAN SECTION 805

In addition to the director independence requirements of Section 803A, the board must affirmatively determine that all of the members of the Compensation Committee or, in the case of a company that does not have a Compensation Committee, all of the independent directors, are independent under this Section 805(c)(1). In affirmatively determining the independence of any director who will serve on the Compensation Committee, the Board must consider all factors specifically relevant to determining whether a director has a relationship to the listed company which is material to that director's ability to be independent from management in connection with the duties of a Compensation Committee member, including, but not limited to: (A) the source of compensation of such director, including any consulting, advisory or other compensatory fee paid the by the listed company to such director; and (B) whether such director is affiliated with the listed company, a subsidiary of the listed company or an affiliate of a subsidiary of the listed company.

SECURITIES EXCHANGE ACT RULE 10A-3

1. In order to be considered independent for the purposes of Rule 10A-3, a director must meet the following independence standards.

- (i) Each member of the audit committee must be a member of the board of directors of the listed issuer, and must otherwise be independent.
- (ii) In order to be considered to be independent, a member of an audit committee may not, other than in his or her capacity as a member of the audit committee, the board of directors, or any other board committee:
 - (A) Accept directly or indirectly any consulting, advisory, or other compensatory fee from the issuer or any subsidiary thereof, provided that, unless the rules of the national securities exchange or national securities association provide otherwise, compensatory fees do not include the receipt of fixed amounts of compensation under a retirement plan (including deferred compensation) for prior service with the listed issuer (provided that such compensation is not contingent in any way on continued service); or
 - (B) Be an affiliated person of the issuer or any subsidiary thereof.

The following definitions apply to the determination of independence under Rule 10A-3:

- (i) The term "affiliate" of, or a person "affiliated" with, a specified person, means a person that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, the person specified.
- (ii) A person will be deemed not to be in control of a specified person for purposes of this section if the person:

5. The terms "listed" and "listing" refer to securities listed on a national securities exchange or listed in an automated inter-dealer quotation system of a national securities association or to issuers of such securities.

APPENDIX 3

OUR COMMITMENTS

1. Human Resources

We are committed to having an employment environment that is supportive and that demonstrates the value that we place on teamwork and individual contributions. We expect all of our employees to treat their fellow employees with the courtesy, dignity and respect that they would like to receive. An integral part of that policy is that the Company does not practice or permit discrimination against any person because of race, colour, religion, national origin, sex, sexual orientation, age or disability. We are also committed to having a friendly workplace that is free of harassment, intimidation and hostility. Not only is it the law; it is good practice.

We are committed to treating all of our employees fairly. To that end, we encourage our employees to confer with the appropriate person if they have employment related issues that they believe should be addressed.

We want to be known as the employer of choice in every community in which we operate.

2. Health and Safety

We are committed to having work sites that are healthy and safe. We expect all of our employees to comply with all applicable health and safety requirements and policies. The health and safety of all of our employees, and all who come in contact with our company locations, is paramount. In addition to following all applicable laws and company safety policies, we expect all of our employees to use common sense in matters involving health and safety. We are committed to the policy that it is always better to be safe than sorry!

3. Environment

We are committed to standards of excellence in our environmental practices. We will meet all legal requirements applicable to our activity. Where feasible, we will exceed the legal requirements. Where there are no applicable legal standards, we will apply responsible practices. To this end, we expect our employees to (1) comply with applicable environmental requirements, (2) seek guidance when they are unsure of the standards, (3) consider what extra steps we may follow to enhance our environmental performance, and (4) report violations or suspected violations to the appropriate persons.

4. Sustainability

In addition to the health and safety and environmental standards noted above, the Company is also committed to the development and implementation by Management of policies and responsible work practices in the Company's activities in order to promote sustainability as a key focus.

The Board of Directors will establish and maintain a Sustainability Committee. The mandate of the Sustainability Committee will include to review, approve and monitor the environmental, health and safety and sustainability policies of the Company prepared by Management so that the Company is in compliance with applicable environmental, health and safety and sustainability and social responsibility laws, regulations, policies and good industry practices

5. Community and Other Stakeholders

We are committed to maintaining the best possible relationships with the communities in which we operate. We cannot function as a company unless we are accepted in the communities in which we operate, and we cannot be accepted in our communities unless we act responsibly toward our neighbours and those who are impacted by our activity. We must remember that in many instances we are guests in the community and that, if we eventually leave, the community and its members will remain in place. If we are to be welcomed in other communities in the future, it is imperative that we leave a legacy of good will in those places where we have conducted business in the past. The Company's policy is to make positive contributions to the communities in which we operate, including encouragement of local employment in our operations and financial contributions to an appropriate extent, so that the community is enriched by our presence. We also encourage all of our employees to participate in community activity.

Our suppliers and customers are critical to our success in many ways. We are committed to maintaining honest and mutually beneficial relationships with our suppliers and customers. We expect to be treated fairly by our suppliers and customers, and our suppliers and customers are entitled to the same treatment from us. Our reputation for fair dealing will serve to benefit us whenever and wherever we engage in business.

Our relationships with governmental entities can be especially important in our success as a company. We are committed to dealing in an honest and forthright manner with all governmental entities with which we have relationships. While we will exercise and protect our legal rights, we will also cooperate with all governmental entities in recognition of our civic duties.

Our employees make our Company successful in many ways. We recognize their participation and importance through our commitments to human resources and health and safety.

Our shareholders are our most important stakeholders. As the owners of the Company, they have entrusted us with the care of their assets, and they rely on us to manage those assets responsibly, with a view to providing them with a suitable return on their investment. We are committed to managing their assets responsibly and to providing them with timely and complete disclosure.

6. Ethical Conduct and Compliance with Law

We are committed to conduct our business in an ethical way and in compliance with applicable laws and regulations. As a part of our commitment, we have established our Code of Ethics and Trading Restrictions. The Code of Ethics and Trading Restrictions contains some specific provisions dealing with such matters as corporate opportunity, conflicts of interest, and securities

trading. It also deals with more general matters, such as compliance with law and honesty and fair dealing. The Company strives to operate in an ethical and legal way in all of its activities, and we expect our employees to do the same. A code of ethics cannot cover everything that may come up. For that reason, when one of our employees is confronted with a matter that is not covered by the Code of Ethics and Trading Restrictions, we expect that employee to ask himself or herself two questions before proceeding: (1) does it feel right, and (2) how would I feel if my actions were the subject of a front-page news report?

7. What to Do

Our Code of Ethics and Trading Restrictions contains a set of suggested procedures that our employees can use to raise issues that they believe may violate the Company's Code of Ethics and Trading Restrictions. But those procedures are equally available for any employee to report any instances where he or she believes that we or any of our employees are falling down on our commitments. We want to know if we can do better, and we encourage all of our employees to tell us anytime they believe we are not fulfilling our commitments.

APPENDIX 4

CODE OF ETHICS AND TRADING RESTRICTIONS

Introduction

The Company's policy is to conduct its business in accordance with the highest ethical and legal standards. To assist the Company in achieving this policy, the Board of Directors has adopted this Code of Ethics and Trading Restrictions. The Code is designed to deter wrongdoing and to promote:

- (a) Honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest;
- (b) Full, fair, accurate, timely and understandable disclosure in reports and documents that the Company submits to regulatory authorities and communicates to the public;
- (c) Compliance with applicable governmental laws and regulations;
- (d) Prompt internal reporting of violations of the Code to appropriate persons identified in the Code; and
- (e) Accountability for adherence to the Code.

The Code applies to all employees, officers, and directors of the Company and its subsidiaries. Because Hunter Dickinson Services Inc. ("HDSI") employees and officers provide substantial services to the Company, the Code also applies to all employees, officers and directors of HDSI with respect to their activities relating to the Company. Depending on the circumstances, it may also apply to agents and other representatives of the Company. ("You" as used in this Code refers to all such persons, as appropriate.) In addition to your complying with the Code, it is your responsibility to prevent others from violating these standards if you are in a position to do so. If you are not in a position to do so, it is your responsibility to bring the matter to the attention of a member of senior management who is in a position to take appropriate action, or to the attention of an independent member of the Board of Directors.

1. Avoiding Questionable or Illegal Practices

The Company's policy is to comply with all laws and regulations that apply to its business, and to avoid any activity that may be regarded as questionable or unethical. Fraudulent, illegal or unethical acts will not be tolerated. No action that would otherwise be questionable is permissible simply because it is customary in a particular location or business.

If you are confronted with a situation that raises an issue under this policy, ask yourself these questions:

- Is the life, health or safety of anyone, or the environment, endangered by the action?
- Is it legal?
- Does it feel honest, fair and ethical?
- Does it compromise anyone's trust or integrity?
- Would the public disclosure of the activity in any way be embarrassing to you, the Company or any other affected employees?

You should be sufficiently familiar with any laws and regulations and Company policies and procedures that apply to your area of work and responsibility. That will permit you to recognize possible breaches and to know when to seek advice. If in doubt, you should discuss the matter with a member of senior management.

2. Honesty and Fair Dealing

When representing the Company, it is important that you deal honestly and fairly with the Company's joint venture partners, suppliers, customers, professional advisors, competitors, other employees, and anyone else with whom you have contact in the course of performing your job. You should not take any advantage of anyone through actions such as manipulation, concealment, misappropriation or abuse of confidential information, falsification, and misrepresentation of material facts, undue influence or any other unfair dealing practice. You also should not give any advantage to anyone for reason of personal relationship, personal benefit or other reasons not involving the best interest of the Company.

3. Policy to Prevent the Corruption of Public Officials

Both Canada and the United States have laws making it illegal to corrupt officials of foreign governments or to engage in certain related acts. In Canada, the law is entitled Corruption of Foreign Public Officials Act and in the United States the law is entitled Foreign Corrupt Practices Act. In the discussion that follows, we have always adopted the more stringent requirement of the two laws. Because the Canadian law applies to dealings with United States officials and the United States law applies to dealings with Canadian officials, the following policy applies equally to dealings with officials in Canada, the United States, and other countries.

(a) Persons to Whom the Laws Apply. Both laws apply to the Company and its subsidiaries; their employees, officers and directors; and their agents and representatives. For these purposes, action by an agent or representative is the equivalent of action by the Company.

The laws may apply in whole or in part to other companies and joint ventures if a U.S. or Canadian company controls the other company or joint venture or otherwise authorizes, directs or participates in activity by the other company or joint venture. Deciding whether activities of a company or joint venture are authorized, directed or participated in by the Company in any particular instance may be an uncertain exercise with uncertain results. In addition, allegations of illegal conduct by any company or joint venture in

which the Company has a significant interest can only cause damage to the reputation of the Company. For this reason, you should assume that any action of any company and joint venture in which the Company has a significant interest, including the actions of the employees and agents of such other company and joint venture, will be attributable to the Company.

(b) Prohibition. The laws and this policy prohibit offering or providing money or anything of value for the personal benefit of any “Public Official.” For purposes of this policy, Public Official means (i) any government official or any official of a public international organization (such as the International Monetary Fund, regional development banks or other multilateral organizations) or (ii) any political party or its officials or any political candidate for the purpose of: influencing that official in the exercise of his or her duties (or non-exercise of those duties); having any such person influence government activity; or otherwise securing an improper advantage for the purpose of aiding the Company in obtaining, retaining or directing business. The laws and this policy may be violated if the Company knows, or if it should have been obvious to the Company, that the payments were made for an illegal purpose.

The laws and this policy also apply to indirect payments, i.e., where the Company offers or provides money or anything of value to any person with the knowledge that the person will make a payment to a Public Official for such a prohibited purpose.

The laws and this policy also prohibit the possession of property or proceeds from property known to have been obtained as a result of the bribery of a Public Official or to “launder” (i.e., deal with intent to conceal) property or proceeds from property obtained as a result of the bribery of a Public Official.

Government-owned corporations and other instrumentalities are generally treated as if they are governments, and their employees, officers and directors are treated as government officials.

(c) Facilitating Payments. “Facilitating payments” are payments made to expedite routine governmental action that does not involve obtaining, retaining or directing business. Example include payments to (i) secure processing of papers such as visas, work orders and permits, (ii) induce customs officials to process legally transmitted goods, (iii) obtain police protection, (iv) obtain installation and maintenance of utility connections, and (v) induce minor government functionaries (government employees without discretionary authority over a project or transaction) to complete their jobs in the manner required and where the situation does not involve the securing of business. Effective in 2013, the law of Canada prohibits facilitating payments to foreign Public Officials. For this reason, the policy of the Company is that no facilitating payments may be made to any Public Official, foreign or domestic.

(d) Exceptions to Prohibitions. There are three exceptions to the laws and this policy:

- It is an affirmative defence if it can be shown that the payment was legal under the written laws and regulations of the country. As an example, in some foreign countries, the Company may be required by law to hire as an agent a national of that country who also is connected to the government of that country in some way or other.
- It also is an affirmative defence if it can be shown that the payment was a reimbursement of travel, lodging and other reasonable and bona fide expenses directly related to the business promotion, demonstration or explanation of the Company's business, or the execution or performance of a contract with the government. As an example, payment of the travel expenses of a government official to visit one of our properties, as a part of an effort to promote the Company in that country, would fit into this category.
- Unconditional gifts having nominal value, when made openly and as a social amenity, or as a token of esteem, regard or gratitude in accordance with local custom, generally will not be regarded as a bribe.

(e) Company Policy. The Company's policy is firm and unconditional. Under no circumstances will the Company ever pay a bribe to a Public Official. If you are ever solicited for such a bribe, or if you become aware of any instance where any Company employee, officer, director, agent or representative of the Company or its subsidiaries or its joint ventures proposes to offer such a bribe or is otherwise involved in such illegal activity, you are to report the matter to your immediate superior, or directly to the CEO or CFO of the Company. Any employee, officer, director, agent or representative who participates in any scheme to pay such an illegal bribe will be terminated immediately.

With respect to payments that fall within the exceptions noted above:

- No payment that would otherwise be an illegal bribe may be made on the basis that it is legal under the written laws and regulations of the foreign country without the prior written approval of the CEO.
- No payment that would otherwise be an illegal bribe may be made on the basis that it is a reimbursement of travel, lodging or other reasonable and bona fide expenses directly related to the business promotion, demonstration or explanation of the Company's business or the execution or performance of a contract with the government without the prior written approval of the CEO.
- With respect to unconditional gifts of nominal value made openly and as a social amenity, or as a token of esteem, regard or gratitude in accordance with local custom, the CEO will establish a monetary limit on the value of any such gift. Any gifts with a value in excess of that limit must be approved in advance by the CEO.

(f) Accounting Requirements. The Company and its affiliated companies and joint ventures must:

- Keep financial records which, in reasonable detail, accurately and fairly reflect transactions; and
- Maintain a system of internal accounting controls sufficient to provide reasonable assurances that (i) transactions are executed in accordance with management authorization, (ii) transactions are properly recorded as needed to permit preparation of financial statements and to maintain accountability for assets, (iii) all assets are recorded on the books of the Company and access to assets is only permitted in accordance with management authorization, and (iv) periodic auditing is done at reasonable intervals and action is taken to resolve discrepancies.

As an example, the accounting provisions require that the Company properly record all payments and prohibit their characterization in some other form. The accounting provisions also prohibit the Company from maintaining off-record cash “slush” funds or cash that may be accessed without senior management authorization.

(g) Things to Look For. The following is a list of “red flags” that may indicate the possible existence of corrupt practices:

- An agent with a poor reputation or with links to the government.
- Unusually large commission payments or commission payments where the agent does not appear to have provided significant services.
- Cash payments, or payments without paper trail or compliance with normal internal controls.
- Unusual bonuses to personnel for which there is little support.
- Payments to third country accounts.

(h) Reporting Requirements. In Canada, the Extractive Sector Transparency Measures Act (the “ESTMA”) requires the Company to publicly disclose, on an annual basis, specific payments made to:

- (1) any government in Canada or in a foreign state at a national, regional, state/provincial, or local/municipal level;
- (2) a body that is established by two or more governments; or
- (3) any trust, board, commission, corporation, body or authority that is established to exercise or perform, or that exercises or performs, a power, duty or function of the government for a government referred to in (1) above, or a body referenced to in (2) above.

Payments that must be disclosed include payments to Crown Corporations and other state-owned enterprises that are exercising or performing a power, duty or function of government. Aboriginal and indigenous groups and organizations

within Canada and in other jurisdictions may be regarded as governments for purposes of qualifying as a payee under the ESTMA. There are seven categories of reportable payments consisting of taxes, royalties, fees, production entitlements, bonuses, dividends and infrastructure improvement payments. All payments made by the Company and any entity controlled by the Company must be reported. The Company's policy is firm and unconditional. All payments made to any governmental entity must be reported, and if you have any knowledge relating to unreported payments, you are to report the matter to your immediate superior, or directly to the CEO or CFO of the Company.

4. Corporate Opportunities and Duty of Loyalty

You have a duty of loyalty to the Company, which includes a duty to advance the Company's legitimate interests when the opportunity to do so arises. Accordingly, you may not use your position or the Company's name, property, information or good will for personal gain or for the gain of others. You are further prohibited from taking advantage of an opportunity that is discovered through the use of any corporate property, information, contacts or your position with the Company. All such opportunities, actual or perceived, should be reported to your immediate supervisor.

Business opportunities that come to the employees, officers and directors of HDSI are dealt with in accordance with the Services Agreement between the Company and HDSI. The Audit and Risk Committee of the Board of Directors is charged with the responsibility of reviewing relationships with HDSI, and it will consider such matters as a part of its periodic review of the relationship. Directors of the Company who are also directors of HDSI nevertheless have an overriding fiduciary duty to the Company that is governed by Canadian law.

Outside directors of the Company may have a variety of other business relationships involving duties of loyalty. In addition, outside directors do not, as a general matter, have the same obligation as officers and employees to bring corporate opportunities to the Company. For these reasons, the Code does not apply to outside directors of the Company with respect to issues involving duties of loyalty or corporate opportunities and such issues, to the extent they arise, are to be resolved directly with the Board of Directors.

5. Avoiding Conflicts of Interest

A conflict of interest occurs when your private interests, or the private interests of your family, interfere, or appear to interfere, in any way with the best interests of the Company. For these purposes, "family" would generally include your parents and grandparents, spouse, children and grandchildren, siblings, in-laws and other persons who share a residence with you or another member of your family. You must take care to avoid any direct or indirect involvement or understanding that might result in such a conflict or create the appearance of such a conflict. Whether a situation involves a conflict of interest depends on all of the circumstances. Generally, the Company would not consider it a conflict of interest if an employee's brother or sister were an officer of a competitor. However, the Company would consider it a conflict of interest if a Company employee in charge of procurement were to purchase products or services from a company owned by the employee's brother or sister or from a company owned by a close

personal friend of the employee. The following are examples of conflict of interest situations which generally must be avoided or which may raise a question:

- Acting as an employee, officer or director of, or a consultant to, a competitor or potential competitor of the Company;
- Having a financial interest in or loan from a business which is a joint venture partner, optionor or optionee, competitor, customer or supplier of the Company or which otherwise does business with the Company (an investment in the securities of a publicly traded company normally would not be considered to present a conflict of interest unless it represented a material part of your savings);
- Placing of Company business with any other company that is directly or beneficially owned or controlled by you or by members of your family.

Some conflicts are clear-cut; others are less obvious. In addition, there may be circumstances where it is necessary or in the best interests of the Company to have a business relationship with a business or company in which an employee or officer, or his or her family, may have an interest. For example, where Company operations are in a remote location, it may be necessary from time to time to enter into a business relationship with a business controlled by an employee's family members. For these reasons, you must fully disclose to your supervisor, the CEO or the CFO all circumstances that could be perceived as involving a conflict of interest between the Company and you or members of your family. Full disclosure enables the Company to resolve unclear situations and to ethically handle conflicts of interest before any difficulty can arise. To the extent a conflict of interest cannot be avoided in a reasonable fashion, then appropriate procedures will be put in place to ensure that there is full disclosure and to minimize the involvement of the conflicted individuals in the relationship giving rise to the conflict.

The Company recognizes that there is a potential for a conflict of interest inherent in the Company's relationship with HDSI. The Board of Directors believe that the Company derives substantial benefits on a cost-effective basis from its continuing relationship with HDSI.

Outside directors of the Company are not expected to devote their time and effort solely on behalf of the Company, and they may have a variety of other business relationships that could give rise to a conflict of interest. Any such potential conflicts of interest are not subject to the Code and are to be resolved directly with the Board of Directors.

6. Giving or Accepting Gifts

The giving or accepting of gifts can adversely affect the Company's reputation for fair dealing and also create conflicts of interest. You should avoid:

- Giving or offering to give any gift, favour, entertainment, reward, or any other thing of value that might influence or appear to influence the judgment or conduct of the recipient in the performance of his or her job. This includes transactions with government personnel, customers and suppliers. Such action may damage the Company's reputation for fair dealing and may be illegal.

- Accepting or soliciting a gift, favour, or other thing of value that is intended to, or might appear to, influence your decision-making or professional conduct. In addition to damaging the Company's reputation for fair dealing, receipt of such gifts could interfere with your ability to make judgments solely in the best interest of the Company, and thus create the appearance of a conflict of interest.

You may give or receive unsolicited gifts or entertainment only in cases where the gifts or entertainment are of nominal value, are customary to the industry, will not violate any laws, and will not influence nor appear to influence the recipient's judgment or conduct. In addition, see sections 3(d) and (e) above with respect to gifts to government officials.

7. Outside Activities

Outside activities must not conflict with the proper performance of your duties.

(a) Other Business Activity. Full-time employees and officers are expected to devote substantial effort and attention to the furtherance of the Company's business. In the usual case, this would make it difficult for you to properly perform your duties while also being engaged in other business ventures. For this reason, you may not serve as the proprietor, general partner, officer or director of any other business without first obtaining the written consent of the CEO or CFO. In the case of family owned businesses, the CEO or CFO will normally grant such consent if he or she is satisfied that the involvement in the family business will not conflict with your duties and will not involve any conflict with the interests of the Company. In addition, the CEO may grant consent to an officer or employee serving as a member of the board of directors of another company in special circumstances. (The Board of Directors will consider any proposal for the CEO or the CFO of the Company to serve on the board of another entity, other than not-for-profit entities or family businesses that in no material way compete with the Company or do any material business with the Company.)

This policy does not apply to employees or officers who are also employees or officers of HDSI with respect to services performed by them for other companies.

(b) Professional Associations and Charitable Organizations. The Company encourages employees and officers to participate in geological, engineering and other professional associations and activities that do not conflict with their duties for the Company and do not involve conflicts of interest. The Company also encourages officers and employees to participate in charitable organizations and activities. However, you should consult with the CEO or CFO before you undertake any such outside activities requiring a substantial amount of time. In addition, you should not accept a position as an officer or director of a professional or charitable organization without prior consultation with the CEO or CFO, so that they can be satisfied that your activity on behalf of such organizations cannot be attributed to the Company.

(c) Political and Government Affairs. No Company contributions may be made, directly or indirectly, to any election or issue campaign in any jurisdiction or circumstance that would be unlawful. Corporate contributions may be made in

appropriate cases where and when permitted by applicable law, but only with the approval of the CEO. Use of Company equipment, supplies or facilities to support any political party, candidate or campaign, as well as employee activity during normal business hours, may constitute a political contribution. You may not engage in any such activity where it involves Company equipment, supplies or facilities or activity during normal business hours without the prior approval of the CEO. In addition, no action which presents, or may appear to present, the position of the Company with respect to any political or governmental matter may be taken without the prior approval of the CEO.

The Company encourages employees and officers, as individuals, to take part in political and governmental affairs to the extent that such activity does not interfere with the proper performance of their duties or involve the use of Company assets or a conflict of interest. However, if you wish to run for public office or hold an appointed public position, you must confer with the CEO and counsel for the Company to ensure that the proposed activity is consistent with your duties to the Company and does not involve a conflict of interest.

The outside directors of the Company are not expected to devote their full time and effort solely on behalf of the Company and accordingly this policy does not apply to them.

8. Accounting and Recordkeeping, Internal Accounting Controls and Auditing Matters.

Many employees of the Company, not just accountants and controllers, participate in the financial control and reporting processes of the Company. If you have ANY responsibility for any aspect of the Company's financial activities (for example: processing or approval of payments; creation, processing or approval of invoices and credit memos; payroll and benefits decisions; approval of expense reports and other transactions; the estimation of financial reserves or other claims or the amount of any accrual of deferral; or the recording of any of the foregoing in the Company's records) and/or the preparation of the Company's financial statements or other financial reports, you must ensure your involvement complies with complete and accurate procedures as per established Company practice.

(a) Accounting and Recordkeeping. You may not maintain funds or assets for any improper purposes or make false or misleading statements in any Company documents, reports or records. No undisclosed or unrecorded accounts may be established using the Company's funds or other assets. All accounting records and the financial reports produced from those records must be kept and presented in accordance with applicable law, must accurately and fairly reflect in reasonable detail the Company's assets, liabilities, revenue and expenses and, where applicable, must be in accordance with generally accepted accounting principles.

Transactions must be supported by accurate and reasonably detailed documentation and recorded in the proper accounts. Best efforts are to be made to record transactions in the proper accounting time period. To the extent that estimates are necessary, they must be based on your good faith judgment and be supported by appropriate documentation. No payment or the related accounting entry may be approved or made with the intention or

understanding that any part of the payment will be used for any purpose other than that described by the document supporting the entry or payment.

(b) Internal Accounting Controls. Internal accounting controls have been established to provide reasonable assurances that (i) transactions are executed in accordance with management authorization, (ii) transactions are properly recorded as needed to permit preparation of financial statements and to maintain accountability for assets, (iii) all assets are recorded on the books of the Company and access to assets is only permitted in accordance with management authorization, and (iv) periodic auditing is done at reasonable intervals and action is taken to resolve discrepancies. You must comply with all internal control requirements and ensure that no action is taken to avoid the internal controls requirements.

(c) Auditing. The Company employs a firm of independent chartered accountants to audit the Company's annual financial statements. The annual audit has a number of purposes, including (i) compliance with regulatory requirements, (ii) providing an independent assessment of whether the Company's financial statements fairly present the financial condition, results of operations and cash flow of the Company, (iii) assessment of the accounting principles used and significant estimates made by the Company in preparing its financial statements, and (iv) assessment of the Company's system of internal controls over financial reporting as required by applicable law and regulatory policies. Each employee is responsible for providing whatever assistance may be required by the auditors. If you receive inquiries from the Company's independent accountants, you must respond promptly, fully and accurately.

If you have any concerns as to weaknesses in the Company's accounting system or in the Company's internal controls; or if you believe that any instances of fraud,* or incorrect or questionable accounting practices may have occurred; or if you believe that any instances of fraudulent, incorrect or questionable practices may have occurred in connection with the annual audit of the Company's financial statements, you should consult with your immediate supervisor or with the Company's CEO or CFO. Alternatively, you may contact the Audit and Risk Committee of the Board of Directors using the procedures outlined below under the heading "Reporting of Possible Violations or Other Questionable Practices - Procedures to Submit a Report." Those procedures include a procedure for confidential, anonymous submission of concerns.

*For purposes of the Code, "fraud" includes any deliberate misstatements or omissions in connection with preparation or reporting (internal or external) of financial and/or operating information about the Company, whether or not material and without regard to whether the employee receives any personal benefit.

9. Use of Company Property

You are entrusted with the care, management and cost-effective use of the Company's property and you are not to make use of these resources for your own personal benefit or for the personal benefit of anyone else. Passwords are to be kept confidential and use of the computer systems is limited to authorized business purposes, although occasional personal use of the internet, e-mail and voice mail will normally be permitted unless your supervisor believes that this privilege is being abused.

However, in order to protect the Company's interests - including for example, to ensure that the Company's computers and voice mail are not being used for improper purposes, such as sexual harassment - the Company reserves the right to review the contents of the Company's computers, its e-mail system, and its voice mail system. No employee has a right of personal privacy with respect to information that is placed in the Company's computers, the e-mail system, or the voice mail system.

You are responsible to ensure that all Company property assigned to you is maintained in good condition, and you should be able to account for such equipment. Any disposition of Company property should be for the benefit of the Company and not for personal benefit.

Company letterhead stationery is to be used only for correspondence related to the Company's business. Do not use it for personal correspondence or charitable solicitation.

You are to return all documents and property in your possession upon termination of your employment for any reason.

10. Proprietary Information

We want our employees to be well informed about our business, our plans for the future, and the successes and challenges we have along the way. In return for this openness, the Company places trust in its employees to maintain the confidentiality of our proprietary information without need for court orders or other legal requirement.

You are to take all reasonable measures to protect the confidentiality of proprietary information obtained or created by you, or otherwise made known to you, in connection with your activities on behalf of the Company. In addition, you must use proprietary information only for the Company's legitimate business purposes, and not for your personal benefit or the benefit of anyone else.

To provide the Company with reasonable protection against unauthorized disclosure or unauthorized use of its proprietary information, all employees are required to sign an employment agreement prior to their start with the Company that includes provisions addressing confidentiality. These agreements state in part that the Company retains exclusive ownership of all project information and opportunities arising out of employment or consulting relationships and any information pertaining to the exploration plans of the Company.

For these purposes, "proprietary information" means information developed or secured for use of the Company in its business, where that information is not generally known to or otherwise

readily available to the public and members of our industry. Proprietary information includes, without limitation:

- The Company's ideas, discoveries, projects, data, contact information and production processes.
- Information concerning actual or projected expenditures, corporate transactions, earnings or operating results or business transactions that has not been disclosed by the Company.
- Investor lists, relationships with consultants, contracts, business plans and strategies.
- Personnel information.

It is your responsibility to know what information is proprietary and ensure that you use and disclose it only in the performance of your duties with the Company. If you are unsure, consider the information to be confidential until you obtain clarification.

If your employment terminates, you will continue to be bound to your obligations of confidentiality to the maximum extent permitted by law.

11. Outside Ideas

The purpose of this policy is to avoid the risk of allegation of unauthorized use or disclosure of another person's proprietary rights, ideas or information.

When an idea, prospect, opportunity, or other confidential or proprietary information is submitted to the Company by an outsider, care must be taken to ensure that the outsider signs an agreement defining the Company's rights and obligations before the idea or prospect or information is disclosed to employees qualified to evaluate it or use it. Outsiders who propose to submit information should be told to submit the information in writing. Outsiders should also be told that any submission constitutes their agreement that the Company's brief review to determine possible interest will not create any non-use, confidentiality or area of interest agreement or obligation of the Company. If they do not so agree, they should be told not to submit their information.

On its receipt, any such information should be sent to the CEO or CFO or persons authorized by them to evaluate outside submissions. No one other than the CEO or CFO and persons authorized by them are to evaluate any outside submission.

Each written submission will first be reviewed to see if it purports to impose non-use, confidentiality or area of interest obligations. If it does, no further review should be made and, unless the CEO upon being notified otherwise directs, the material should be returned without further review. If the material does not purport to impose such an obligation, it should be reviewed briefly to see if it might be of interest. If it is not of interest, it is to be returned with a letter stating that the information was briefly reviewed to determine possible interest, that the information is not of interest, and that the Company has no non-use, confidentiality or area of interest agreement or obligation to the sender. If the sender was previously so informed, the

letter should also refer to that prior advice. If the material appears to be of interest, then the Company will need to enter into an appropriate confidentiality agreement setting out the parties' rights and obligations before any further review or use of the information.

Third party data subject to confidentiality obligations should be so marked, all confidentiality obligations should be noted on the relevant document or file, and all such obligations must be strictly adhered to.

12. Disclosure Policy

The Company has both legal and ethical obligations to provide appropriate disclosure of material information, and to ensure that employees and others do not benefit from having and using undisclosed material information. "Material information" is any information that reasonably could be expected to affect the market for the Company's stock or to influence an investor's decision to buy, sell or hold the stock. The wrongful use of undisclosed material information may make both the Company and the individual involved liable for criminal and/or civil penalties and damage awards.

- (a) **Control of Confidential Information.** All employees have the responsibility to inform senior management on a timely basis of events or developments that might have a material effect on the Company. Such information should be communicated to your superior or to members of senior management.

Strict confidentiality must be maintained with regard to disclosure of confidential information to persons within the Company who have no need to know, and to anyone outside of the Company. Care must be taken when handling confidential correspondence, assay results, reports, documents, memos and facsimiles. Documents containing confidential information should be shredded or otherwise destroyed, and not placed in rubbish bins. Visitors to the offices or work sites of the Company are not to be left unattended at any time, except in designated "safe" locations, e.g. reception area and conference rooms. Discussions by Company personnel concerning Company business should be confined to Company personnel only and on a "need to know" basis, and should never occur in public places such as elevators or airplanes.

- (b) **Public Disclosure Responsibilities.** The Company has a variety of disclosure obligations under laws and stock exchange rules. The Company fulfills those obligations through regulatory filings, periodic reports to shareholders, press releases, and web site disclosure. The Company also provides information to shareholders and others through communications with the media, analysts and others in the financial community, by way of industry presentations, and in response to inquiries. In carrying out the Company's disclosure responsibilities:

- The CEO, the CFO, and other members of senior management, as appropriate, have the sole responsibility to determine (i) whether a particular matter is sufficiently material to the Company to require disclosure, and (ii) the content, time and manner of disclosure.

- Company Spokespersons have the exclusive authority to speak for the Company with respect to matters of public disclosure. The Company Spokespersons consist of the CEO and any other persons who are authorized by the CEO, generally or in a specific instance, to speak for the Company. **NO OTHER PERSONS ARE AUTHORIZED TO COMMUNICATE AS TO MATTERS OF PUBLIC DISCLOSURE ON BEHALF OF THE COMPANY.**
- It is the responsibility of the Company to ensure that undisclosed material information is disseminated in such a way that all members of the public have equal access to the information. Substantial security holders and analysts in particular **MUST NOT** receive preferential treatment in the matter of information disclosure. For example, previously undisclosed material information is not to be disseminated by way of communications with analysts, in earnings telephone conferences, or in industry conference presentations. If material undisclosed information is to be communicated through such means, it must first be communicated to the public generally by way of a press release or regulatory filing such as a material change report or Form 6-K report. Persons given early access to undisclosed material information may not use that information to trade in the Company's securities, and they, the Company and the individual who causes the early disclosure may be liable for civil and criminal penalties and damage awards if there is trading on undisclosed material information. There may be occasions however when the Company discusses or discloses to a third party sensitive or material information under the terms of a written confidentiality agreement that both parties have signed.

(c) External Communications and Inquiries from Analysts, Media and Other Outsiders. Communications intended for dissemination outside of the Company and concerning the Company's business must be referred to the CEO or to one of the designated Company Spokespersons prior to dissemination. This includes presentations to analysts and papers or presentations to professional groups and others.

All inquiries from the press, securities analysts, investors and other outsiders concerning the Company's business and affairs must be referred to one of the designated Company Spokespersons. This will ensure that information is disclosed consistently and equitably. Unless specifically authorized, no one is authorized to respond to such inquiries.

(d) Comments on and Dissemination of Analysts' Reports and Other Media Stories. From time to time, the Company may be asked to review or comment on analysts' reports or other media stories about the Company. No employee, officer or director is to review or comment on analysts' reports or media stories except an authorized Company Spokesperson, and any such inquiry should be forwarded to such an authorized person without any comments. If a Company Spokesperson does review such a report or story, the Company Spokesperson should review the report or story **ONLY** for factual information and limit his/her comments to discussion or correction of facts. Furthermore, no undisclosed material information is to be communicated in the course of such a review and comment. If factual correction would result in the disclosure of undisclosed material information, the Company Spokesperson must take the necessary steps to ensure that

such information is communicated to the public generally before it is communicated to the particular analyst or other person making the inquiry.

Employees, officers or directors of the Company may be asked to forward or recommend analysts' reports or may consider forwarding analysts' reports or media stories about the Company. The forwarding or recommending of such reports or stories may be regarded as verifying or validating the information contained in the reports or stories. If any of the information in the report or story is not accurate, the act of forwarding or recommending the report or story may constitute the dissemination of false or misleading information in violation of securities laws. In addition, if any of the information in the report or story is accurate but has not been generally disseminated by the Company, the forwarding or recommending of the report or story may constitute selective disclosure in violation of securities laws. Finally, copying and dissemination of analysts' reports and media stories may violate copyright laws or the proprietary rights of the authors of the reports or stories. For these reasons, no employee, officer or director should reproduce and distribute or otherwise disseminate such reports and stories unless specifically approved by the CEO. Persons requesting such materials should be referred to the author or organization that published the material. In addition, employees, officers and directors should not recommend particular analysts' reports on the Company to any person.

(e) Comments on Rumours and Correction of Selective Disclosure. Employees, officers and directors must not comment, whether positively or negatively, on rumours about the Company's business. Information about such rumours should be reported to the Company Spokespersons. In general, the Company's policy is not to comment on rumours. If a stock exchange or securities regulatory authority requests the Company to make a definitive statement in response to rumours, a Company Spokesperson will consider the matter in consultation with legal counsel.

If any employee, officer or director makes an unauthorized or premature disclosure of undisclosed material information (inadvertently or otherwise), the person responsible for the disclosure, and any other employee, officer or director learning of it, must contact the CEO or other Company Spokesperson as soon as possible, and the CEO and other Company Spokespersons will consider the Company's responsibilities under applicable law.

13. Securities Transactions

(a) **Restrictions on Trading.** In general, employees, officers and directors, and their family members, may trade in Company securities unless:

- A Blackout Period (see below) is in place, or
- The person has knowledge of undisclosed material information.

If a Blackout Period exists, or if you have knowledge of undisclosed material information, neither you nor your family members may trade in Company securities. For purposes of this policy, "family member" means your spouse, your minor children,

any person substantially dependent on you for support, and other persons who share a residence with you. This prohibition does not apply to purchases or sales made pursuant to a legal obligation entered into prior to the commencement of a trading blackout and prior to obtaining knowledge of undisclosed material information. It also does not apply to purchases on exercise of Company granted options or Company issued warrants (but not the resale of the purchased security) where the price was fixed prior to the beginning of the blackout period. There is one additional exception to this policy: you may sell securities pursuant to a previously existing Trading Plan entered into with a qualifying broker under Section 57.4 of the Securities Act of British Columbia and pursuant to SEC Rule 10b5-1, provided that you were not in possession of undisclosed material information (unless it has since been disclosed) at the time you established the Trading Plan. Notwithstanding these exceptions, the Company reserves the right to bar any transactions concerning the Company's securities if the CEO, in consultation with legal counsel, determines that such a bar is in the best interests of the Company.

In addition, while you are in possession of undisclosed material information, you and your family members must not trade in the securities of companies that have a significant legal or financial business relationship, direct or indirect, with the Company (generally joint venture partners) if the undisclosed material information relates to the subject matter of that business relationship.

(b) Blackout Period. From time to time, the CEO or other Company Spokesperson may institute a Blackout Period because of the existence of undisclosed material information. If a Blackout Period is instituted, you will be notified, generally by e-mail. Once notified of the existence of a Blackout Period, except as noted above, you and your family members may not trade in the Company's securities until you have been notified that the Blackout Period has been terminated. The existence of a Blackout Period is itself an item of confidential information that is not to be disclosed to persons outside of the Company.

(c) Special Considerations in Investing in Company Securities. You and your family members are urged not to purchase securities of the Company using borrowed funds in an amount or on terms and conditions which are not prudent in light of your financial condition. In addition, careful consideration should be given before pledging Company securities for a loan because of the potential insider trading liability that could arise if the lender should seek to sell the securities at a time when there is undisclosed material information about the Company.

(d) Certain Additional Policies. These additional policies apply to officers and directors and in regards to short sales, employees, of the Company.

- No employee, officer or director shall engage in short sales of securities of the Company or sales of borrowed securities of the Company. For purposes hereof, the short sale of Company shares as a method of facilitating the exercise of a valid option granted by the Company shall be deemed not to be a short sale for purposes of the aforementioned restriction notwithstanding any such sale-against-an-option may be treated as a short sale under Canadian securities legislation. Before selling short

against an option, the holder of the option should bring the proposed transaction to the attention of the Company's CEO or CFO so as to ensure the transaction is treated properly, unless the transaction is through the use of an option exercise and sale facility established by the Company.

- No officer or director shall acquire financial instruments, including for greater certainty, prepaid variable forward contracts, equity swaps, collars or units of exchange funds, that are designed to hedge or offset a decrease in market value of options or equity securities granted as compensation or held directly or indirectly by the officer or director.
- No officer or director shall place automatic buy or sell orders with brokers except for a Trading Plan entered into with a qualifying broker under Section 57.4 of the Securities Act of British Columbia and pursuant to SEC Rule 10b5-1, provided that you were not in possession of undisclosed material information (unless it has since been disclosed) at the time you established the Trading Plan.
- No officer or director of the Company shall buy or sell equity securities of the Company during the period that begins five trading days before and ends one trading day after the public release of quarterly and annual results of operation of the Company.

14. Administration and Distribution

The Company's Board of Directors, the Audit and Risk Committee, and the Nominating and Governance Committee have established the standards of business ethics and conduct contained in the Code, and it is their responsibility to oversee compliance with the Code. Any change in or waiver of any provision of the Code shall require approval of the Audit and Risk Committee or the Nominating and Governance Committee, as applicable, and shall be publicly disclosed in the time period and manner as required by law or regulation.

The Code is to be distributed to each employee, officer and director of the Company and to the employees, officers and directors of HDSI. It will also be made available via the Company's Internet site.

Strict adherence to the Code is vital. Directors will confirm on an annual basis in connection with the preparation of the Management Information Circular that they have read and understand the Code of Ethics. Management will adopt appropriate policies to ensure that officers and employees are provided with and have read the Code of Ethics. All managers are responsible for ensuring that employees under their supervision are aware of and understand the provisions of the Code. For clarification or guidance on any point in the Code, please consult the CEO or CFO.

15. Reporting of Possible Violations or Other Questionable Practices

The following procedures govern the reporting and treatment of reports of possible violations of the Code. The Company's Audit and Risk Committee Charter provides that the Audit and Risk Committee is to establish procedures for the receipt, retention and treatment of complaints

received by the Company regarding accounting, internal accounting controls or auditing matters, and the confidential, anonymous submission by employees of concerns regarding questionable accounting or auditing matters. The Audit and Risk Committee has adopted these procedures as to complaints and submissions regarding accounting, internal accounting controls or auditing matters, and the Nominating and Governance Committee has adopted these procedures as to all other complaints and submissions regarding the Code.

(a) When to Make a Report. You should make a report if you believe that any employee, officer or director of the Company or HDSI, or any agent or representative of the Company, may have or is about to engage in any conduct which you believe may be:

- A violation of the Code or any internal policy or code of practice,
- A violation or otherwise involve questionable practices in connection with accounting, internal accounting controls or auditing matters,
- A violation of any law or regulation,
- Corruption, mismanagement or fraud, or
- A danger to the public or danger to worker health and safety or the environment.

If you are unsure about the matter but concerned about the possibility of a violation or questionable practice, you should nonetheless report the matter. Delays in bringing the information to the attention of senior management, the Audit and Risk Committee, or the Nominating and Governance Committee may cause damage, complications, and irreversible consequences for the Company. Following the steps outlined below will allow the Company to address the issues and ensure that timely remedial action is taken.

(b) Procedures to Submit a Report. You may make a report under this procedure in one of the following ways:

- Bring the matter to the attention of your immediate supervisor. Any supervisor receiving such a report is to immediately bring the matter to the attention of the CEO, the CFO, or other member of senior management.
- Bring the matter to the attention of the CEO, the CFO, or other member of senior management.
- Bring the matter to the attention of an independent director of the Company. Matters relating to accounting, internal accounting controls or auditing matters should be reported to the Chair of the Audit and Risk Committee. All other matters should be reported to the Chair of the Nominating and Governance Committee. If you are uncertain as to whether the matter should go to the Audit and Risk Committee or the Nominating and Governance Committee, you may choose either one. You may make the report orally, in writing, or by e-mail. All reports will be treated as confidential to the extent possible, and only revealed on a need-to-know basis or as required by law

or court order. Contact information for the Chair of the Audit and Risk Committee and the Chair of the Nominating and Governance Committee is as follows:

You may also report using the hotline. You may remain anonymous if you wish.

Phone number : 833-627-1015

Website : <https://hdimining.ethicspoint.com>

All report information will be input directly into the system and a notice will be sent via email to the Chair of the Audit and Risk Committee and the Chair of the Nominating and Governance Committee.

With respect to matters involving the possible violation of laws or regulations, you also may choose to bring such concerns to an outside regulatory authority. However, the Company is committed to taking internal action in response to employee concerns, and would appreciate the opportunity to do so, if appropriate.

(c) Follow-up and Outcome.

(i) On receipt of a complaint, the complaint will be reported promptly to the Chair of the Audit and Risk Committee if it relates to accounting, internal accounting controls or auditing matters, and to the Chair of the Nominating and Governance Committee if it relates to other matters under the Code. In the case of an oral complaint, the party receiving the complaint is to report it orally and also to prepare a written summary for the Chair of the Audit and Risk Committee or Nominating and Governance Committee, as applicable.

(ii) The appropriate Committee Chair will promptly commission the conduct of an investigation. At the election of the Committee Chair, the investigation may be conducted by Company personnel, or by outside counsel, accountants or other persons employed by the appropriate Committee.

(iii) The identity of a person filing a complaint will be treated as confidential to the extent possible, and only revealed on a need-to-know basis or as required by law or court order.

(iv) On completion of the investigation, an oral and/or written investigative report will be provided to management and the Audit and Risk Committee or Nominating and Governance Committee, as applicable. If any unlawful, violative

or other questionable conduct is discovered, the appropriate Committee will cause to be taken such remedial action as the Committee deems appropriate under the circumstances to achieve compliance with the applicable law, regulation or policy and to otherwise remedy the unlawful, violative or other questionable conduct. The Chair of the appropriate Committee will prepare, or cause to be prepared, a written summary of the remedial action taken.

(v) In each case, the written investigative report (or summary of any oral report), and a written summary of the remedial action taken in response to the investigative report will be retained along with the original complaint by or under the authority of the appropriate Committee Chair for a period of four years after the resolution of the matter.

(d) Prohibition Against Retaliation. The Company welcomes the courage and honesty of an employee who voices concern over a particular course of action that he or she believes to be unlawful or harmful. Any attempts to intimidate, threaten, harass or retaliate against any employee based upon a good faith report made by an employee pursuant to the Code is strictly prohibited and will result in disciplinary action up to and including termination of the person responsible for any such intimidation, threat, harassment or retaliation.

However, groundless or unwarranted complaints - including those with vindictive intent – are not acceptable. Appropriate disciplinary measures will be taken if allegations are initiated for malicious reasons or in bad faith.

(e) Governmental or Company Inquiry. If you receive an inquiry from a governmental authority concerning suspected unlawful conduct, you should immediately direct the inquiry to your immediate superior, the CEO, the CFO or other member of senior management. In such circumstances, you should take measures to preserve documents and other items relevant to the investigation. To conceal an offence or to alter or destroy evidence is illegal and may result in criminal prosecution. It also violates the Company's commitment of conducting its business in a legal and ethical manner and is strictly prohibited.

If you receive an inquiry from the Company representative or a Board committee in connection with an investigation under the Code, you are equally obligated to take measures to preserve documents and other items relevant to the investigation.

(f) Failure to Comply or File a Report. The Company is committed to complying with all applicable laws, regulations and policies. Such compliance is only possible if all employees, officers and directors ensure that they follow all applicable laws, and Company policies and guidelines. When in doubt, ask the CEO, CFO or other members of senior management. Personnel who violate the law or the Company's compliance policies or knowingly fail to report a violation of law or compliance policy may be subject to disciplinary action, up to and including dismissal. The nature and extent of the action will be determined on a case-by-case basis. In reviewing the situation, the following is a partial list of considerations:

- The nature and severity of the offence.
- Whether the persons involved acted reasonably.
- The efforts by the persons involved to obtain guidance before the offence occurred.
- Whether the persons involved reported themselves.

Personnel are encouraged to report their own wrongdoing or possible wrongdoing. This action will be taken into account when assessing the appropriate discipline, if any. The Company will also recognize situations where a person has made an honest mistake and will take it into account in deciding the course of action to pursue.

APPENDIX 5

DISCLOSURE CONTROLS AND PROCEDURES POLICY

1. Introduction

Canadian and United States laws require the Company to maintain “disclosure controls and procedures” that are designed to ensure that information required to be disclosed by the Company in reports it files or submits to regulatory authorities is recorded, processed, summarized and reported on a timely basis. Disclosure controls and procedures must be designed to ensure that information is accumulated and communicated to the Company’s management to allow timely decisions regarding required disclosure. Disclosure controls and procedures should capture information that is relevant to assessment of developments and risks that pertain to the Company’s business, as well as other material information about the Company.

The Company’s CEO and CFO periodically are required to certify that they (1) are responsible for establishing and maintaining disclosure controls and procedures, (2) have designed such controls and procedures to ensure that material information is made known to them by others within the Company on a timely basis, and (3) have evaluated the effectiveness of the disclosure controls and procedures and presented the conclusions of that evaluation in certain filings.

Also, legislation in at least one Province (Ontario) requires such procedures and controls be in place in order for management to have a defence against litigation arising out of a misstatement in a public filing or arising out of a failure to promptly make a required disclosure.

2. Application

This Disclosure Controls and Procedures Policy covers the following:

(a) Periodic Disclosures

- Annual Information Forms and Annual Reports.
- Reports to Shareholders, quarterly and other periodic reports, financial statements and related MD&A reports, and related press releases.
- Management Information Circulars.
- Registration statements/prospectuses.

(b) Event-Driven Disclosures

- Anticipated events such as the results from material exploration programs, acquisitions, divestitures, and initiation of legal proceedings by the Company.

- Unanticipated events such as early or unexpected receipt of surprising exploration results, correction of misstatements in previously publicly-filed information, lawsuits against the Company, severe accidents causing harm to personnel or significant loss of property, material regulatory investigations, and discovery of fraud or illegal conduct.

3. Supplement to Internal Controls and Procedures

The Company's other internal controls and procedures are not affected by these disclosure controls and procedures, and they will continue to operate independent of the disclosure controls and procedures set out in this Policy.

4. Statement of Responsibility

Design, maintenance and implementation of this Policy is the responsibility of the CEO and CFO with the assistance of the other members of the Disclosure Committee (as defined below).

5. Disclosure Committee

The Company has established a Disclosure Committee in order for the Company to carry out its responsibilities under this Policy. The Committee is not a committee of the Board. The Committee shall maintain a record of its work and deliberations. The Disclosure Committee shall appoint a Secretary for the Committee, who need not be a member of the Committee, who shall be responsible for maintaining such records and otherwise documenting compliance with the requirements of this Policy.

(a) Members

The Disclosure Committee consists of the President and CEO, CFO and such other persons as the CEO may designate. The Disclosure Committee may delegate specific functions to subcommittees of the Disclosure Committee, subject to final report to, and approval of the actions of any such subcommittee by, the Disclosure Committee. A quorum of the Disclosure Committee is the CEO and any one member or the CFO and a majority of all members other than the CEO and CFO.

(b) Meetings

The Disclosure Committee will meet as required, and will meet (or communicate by telephone or electronically) on the request of any member in the event of the occurrence of an event or situation involving or affecting the Company which may warrant public disclosure.

(c) Responsibilities

The primary responsibility of the Disclosure Committee is to cause the Company to fulfill its disclosure obligations on a timely basis. To carry out its functions, the Disclosure Committee will:

- Establish and implement controls and procedures for the timely collection and reporting to the Disclosure Committee of potential material information, and the timely evaluation and dissemination of material information to securities regulators, stock exchanges and shareholders.
- Review, or arrange for the review by an authorized subcommittee, of all documents subject to the Policy.
- Evaluate the design of disclosure controls and procedures, including this Policy, not less frequently than quarterly, and evaluate their effectiveness annually and within 90 days of the end of the year and report on its evaluation of disclosure controls and procedures at least annually to the Audit Committee of the Board of Directors.

In fulfilling its oversight responsibilities, the Disclosure Committee will give consideration to the following:

- Involvement of key personnel as necessary to ensure adequate collection, evaluation and disclosure of all material information.
- Adequacy of resources, including quality of staffing within areas of responsibility for collection, evaluation and disclosure of all material information.
- Adequacy of training of personnel involved with collection, evaluation and disclosure of all material information.
- Approval responsibility for each part and the entirety of disclosure documents.

In carrying out its responsibilities, the Disclosure Committee will have full access to all books and records, facilities and personnel of the Company, as well as independent auditors, counsel and other experts.

6. Procedures

The following key disclosure controls and procedures are established to ensure that material information is collected, evaluated and disclosed by the Company on a timely basis.

(a) *Standing Disclosure Practice and Procedure*

The Company's Code of Ethics and Trading Restrictions sets out, in paragraph 12, the Company's Disclosure Policy. That Disclosure Policy explains the responsibility of each employee to inform senior management on a timely basis of events or developments that might have a material effect on the Company. It is the responsibility of all members of senior management to inform the members of the Disclosure Committee of such information.

(c) *Reports to Shareholders, quarterly and other periodic reports, financial statements and related MD&A reports, and related press releases.*

In addition to the Company's normal financial closing processes, the Company will follow the following additional procedures in respect of Reports to Shareholders and quarterly and other periodic reports, financial statements and related MD&A reports, and press releases.

APPENDIX 10

POLICY ON ENGAGEMENT WITH SHAREHOLDERS ON GOVERNANCE MATTERS

The board of directors believes that it is important to have regular and constructive engagement directly with its shareholders to allow and encourage shareholders to express their views on governance matters directly to the board outside of the annual meeting. These discussions are intended to be an interchange of views about governance and disclosure matters that are within the public domain and will not include a discussion of undisclosed facts or material changes.

The board will develop practices to assess engagement with its shareholders as is appropriate for its shareholder base and size. Examples of engagement practices include meeting with the company's larger shareholders and organizations representing a group of shareholders, as well as creating conduits for communication with smaller shareholders on an ongoing basis.

The board recognizes that shareholder engagement is an evolving practice in Canada and globally, and will review this policy annual to ensure that it is effective in achieving its objectives.

APPENDIX 11

BOARD DIVERSITY POLICY

The Company believes in diversity and values the benefits that diversity can bring to its Board. Diversity promotes the inclusion of different perspectives and ideas, mitigates against groupthink and ensures that the Company has the opportunity to benefit from all available talent. The promotion of a diverse Board makes prudent business sense and makes for better corporate governance.

The Company seeks to maintain a Board comprised of talented and dedicated directors with a diverse mix of expertise, experience, skills and backgrounds. The skills and backgrounds collectively represented on the Board should reflect the diverse nature of the business environment in which the Company operates. For purposes of Board composition, diversity includes, but is not limited to, business experience, geography, age, gender, and ethnicity and aboriginal status. In particular, the Board should include an appropriate number of women directors.

The Company will periodically assess the expertise, experience, skills and backgrounds of its directors in light of the needs of the Board, including the extent to which the current composition of the Board reflects a diverse mix of knowledge, experience, skills and backgrounds, including an appropriate number of women directors.

Whenever the Board or a Committee of the Board is in the process of identifying new candidates, including when an external search firm is engaged, the Board or said Committee, or search firm will be specifically directed to include diverse candidates generally in the pool of candidates, and must include women candidates in particular.

If the Company determines to establish an evergreen list of potential board candidates, women candidates for director will be included in the evergreen list.

The Company has three women on the Board of Directors as of March 1, 2025. The goal of the Company is to continue to have at least three women on the Board and to continue to seek women and other diverse candidates to fill vacancies on the Board as vacancies arise.

In order to promote the specific objective of gender diversity, the selection process for Board nominees will involve the following steps:

- a heightened focus on identifying potential candidates who will increase the gender diversity of the Board; and
- if, at the end of the selection process, a candidate who increases gender diversity is not selected, the Board must be satisfied that there are objective reasons to support its determination.

In its annual consideration of Board nominees, the Nominating and Governance Committee will discuss and measure its progress in achieving diversity on the Board and, where appropriate, make recommendations to the Board in that regard.

The Board continually reviews and assesses Board composition and executive officer appointments. Further to the above, the Board considers the level of representation of women on the Board and in executive officer positions in making such appointments and specific effort is made through the selection processes to identify suitable female candidates who meet the Company's needs. It remains a key objective of the Board to achieve gender diversity

Annually, the Board or a committee of the Board will review this policy and assess its effectiveness in promoting a diverse Board.

2.3 Compliance

The Compensation Committee may require that any employment agreement, offer letter, compensation plan, equity award agreement, or any other agreement entered into on or after the Effective Date require an Executive Officer to agree to abide by the terms of this Recovery Policy. Further, the Compensation Committee may require each Executive Officer to acknowledge this

Recovery Policy through execution of the form of acknowledgement attached hereto as Exhibit 1 (or such other form as approved from time-to-time by the Compensation Committee).

3. SCOPE AND INTERPRETATION OF THIS RECOVERY POLICY

3.1 Effective Period

This Recovery Policy will be applied to all Incentive Based Compensation that is Received by an Executive Officer on or after the Effective Date.

3.2 Scope of Executive Officers Subject to Recovery Policy

The Compensation Committee will determine from time-to-time the individuals that are deemed to be subject to the Recovery Policy by virtue of being considered an Executive Officer of the Company under Rule 10D-1.

3.3 Scope of Accounting Restatements Subject to Recovery Policy

The Accounting Restatements that will trigger the obligation to recover Erroneously Awarded Incentive-Based Compensation will include any restatement of any of the financial statements of the Company filed with the SEC under the Exchange Act to correct an error in previously issued financial statements that is material to the previously issued financial statements, or that would result in a material misstatement if the error were corrected in the current period or left uncorrected in the current period. For clarity, Accounting Restatements include for the purposes of this Recovery Policy both:

- (a) big “R” restatements, being restatements to correct an error material to previously issued financial statements, and
- (b) little “r” restatements, being restatements to correct errors that were not material to those previously issued financial statements, but would result in a material misstatement if (i) the errors were left uncorrected in the current report or (ii) the error correction was recognized in the current period.

3.4 Determination of When Incentive-Based Compensation is Received

Incentive-Based Compensation will be deemed Received in the fiscal period during which the Financial Reporting Measure specified in the Incentive-Based Compensation award was attained, even if the payment or grant occurs after the end of that period.

4. RECOVERY OF ERRONEOUSLY AWARDED INCENTIVE-BASED COMPENSATION

4.1 Recovery

In that event that the Company is required to prepare an Accounting Restatement, the Company will reasonably promptly take action to recover the amount of any Erroneously Awarded Incentive-Based Compensation that has been Received by each applicable Executive Officer:

- (a) after beginning services as an Executive Officer;
- (b) who served as Executive Officer at any time during the performance period for that Incentive-Based Compensation;
- (c) while the Company has a class of securities listed on NYSE American (or another national securities exchange in the United States or Nasdaq); and
- (d) during the three completed fiscal years immediately preceding the date on which the Company was required to prepare the Accounting Statement, as this three year period is determined under Section 4.4 below.

4.2 No Fault Basis

Recovery will be required on a “*no fault*” basis, without regard to whether an Executive Officer engaged in any misconduct or whether the Executive Officer was responsible for the erroneous financial statements that led to the Accounting Restatement.

4.3 Trigger for Recovery of Erroneously Award Compensation

The date on which the Company is deemed to be required to prepare an Accounting Statement for the purposes of determining the Recovery Period under Section 4.1 will be the earlier to occur of:

- (a) the date that the Board or a committee of the Board concludes, or reasonably should have concluded that the Company, is required to prepare an Accounting Restatement, or
- (b) the date that a court, regulator or other legally authorized body directs the Company to prepare an Accounting Restatement.

4.4 Determination of Recovery Period

The recovery period for the determination of Erroneously Awarded Incentive-Based Compensation (the “Recovery Period”) will determined as the three completed fiscal years immediately preceding the date that the Company is required to prepare an Accounting Restatement, as that date is determined under Section 4.3. In the event of a change in the financial year of the Company, the Recovery Period will also include any transition period that results from a change in the Company’s fiscal year within or immediately following those three completed fiscal years, provided that a transition period between the last day of the Company’s previous fiscal

year end and the first day of its new fiscal year that comprises a period of nine to 12 months would be deemed a completed fiscal year.

4.5 Scope of Incentive Based Compensation Subject to Recovery

Recovery will be made against each current and former Executive Officer who has Received Incentive-Based Compensation during the three year Recovery Period to the extent that such Incentive-Based Compensation is determined to be Erroneously Awarded Incentive-Based Compensation. Recovery of Incentive-Based Compensation received while an individual was serving in a non-executive capacity prior to becoming an Executive Officer is not subject to this Recovery Policy and recovery will not be required. An award of incentive-based compensation granted to an individual before the individual becomes an Executive Officer will be subject to this Recovery Policy, so long as the Incentive-Based Compensation was received by the individual at any time during the performance period after beginning service as an Executive Officer.

4.6 Determination of Amount of Erroneously Awarded Compensation

The amount of any Erroneously Awarded Incentive-Based Compensation to be recovered under Section 4.1 will be determined as follows for each applicable Executive Officer:

- (a) the amount of Incentive-Based Compensation that has been Received by the Executive Officer during the Recovery Period to which this Recovery Policy applies, less
- (b) the amount of the Incentive-Based Compensation that would have been received in respect of the Recovery Period had the Incentive-Based Compensation been determined based on the restated amount.

4.7 Compensation Based on Stock Price.

Erroneously Awarded Incentive-Based Compensation will include any Incentive-Based Compensation that was based on stock price or TSR to the extent that the Incentive-Based Compensation was inaccurate as a result of the Accounting Restatement. For Incentive-Based Compensation based on stock price or TSR, where the amount of Erroneously Awarded Incentive-

Based Compensation is not subject to mathematical recalculation directly from the information in the Accounting Restatement:

- (a) the amount must be based on a reasonable estimate of the effect of the Accounting Restatement on the stock price or TSR upon which the Incentive-Based Compensation was received, and
- (b) the amount of the Incentive-Based Compensation that would have been received in respect of the Recovery Period had the Incentive-Based Compensation been determined based on the restated amount.

4.8 Notice

The Compensation Committee shall promptly notify each Executive Officer with a written notice containing the amount of any Erroneously Awarded Compensation and a demand for repayment or return of such compensation.

4.9 No Deduction for Taxes

The amount of any Erroneously Awarded Incentive-Based Compensation will be computed without regard to any taxes paid by the Executive Officer.

4.10 No Duplication

To the extent that the Executive Officer has already reimbursed the Company for any Erroneously Awarded Compensation Received under any duplicative recovery obligations established by the Company or applicable law, it shall be appropriate for any such reimbursed amount to be credited to the amount of Erroneously Awarded Compensation that is subject to recovery under this Recovery Policy.

4.11 No Requirement for Additional Compensation

Notwithstanding anything in this Recovery Policy, in no event will the Company be required to award any Executive Officer an additional payment or other compensation if the Accounting Restatement would have resulted in the grant, payment or vesting of Incentive-Based Compensation that is greater than the Incentive-Based Compensation actually received by the affected Executive Officer. The recovery of Erroneously Awarded Incentive-Based Compensation is not dependent on if or when the restatement is filed.

5. REPORTING

5.1 Reporting of Erroneously Award Compensation

In the event of an Accounting Restatement pursuant to which the Compensation Committee has considered whether recovery of any Erroneously Awarded Incentive-Based Compensation is required, the Compensation Committee will prepare a report to management of the Company

detailing the information required to be reported by the Company with respect to such Accounting Restatement on the Form 40-F or other form of annual report to be filed by the Company under the Exchange Act for the fiscal year in which the Accounting Restatement occurred and in any other filing required to be made by the Company under Securities Laws.

5.2 Documentation

The Compensation Committee will maintain documentation as to the determination of the amount of any Erroneously Awarded Incentive-Based Compensation, including any reasonable estimates made during the calculation process, and any efforts undertaken to recover Erroneously Awarded Incentive-Based Compensation. The Company will provide this information to NYSE American upon its request.

Without limiting the above, the Company will comply with all disclosure, documentation and records requirements relating to this Recovery Policy under Section 10D of the Exchange Act, the NYSE American Company Guide and the filings required to be made by the Company under the Exchange Act.

6. ENFORCEMENT OF RECOVERY

6.1 Requirement to Recover

Upon a determination by the Compensation Committee that the Company is obligated to recover Erroneously Awarded Incentive-Based Compensation under Section 4.1, the Company will take steps to recover such Erroneously Awarded Incentive-Based Compensation other than in circumstances where each of (a) and (b) below apply:

(a) one of the following circumstances exists:

- (i) the direct expense paid to a third party to assist in enforcing this Recovery Policy would exceed the amount to be recovered, provided that before concluding that it would be impracticable to recover any amount of Erroneously Awarded Incentive-Based Compensation based on expense of enforcement, the Company has made a reasonable attempt to recover such Erroneously Awarded Incentive-Based Compensation and documented such reasonable attempt(s) to recover (which documentation will be provided to NYSE American at the request of NYSE American);
- (ii) recovery would violate British Columbia or Canadian law where that law was adopted prior to November 28, 2022, provided that the Company has obtained an opinion of its Canadian counsel, in a form acceptable to NYSE American, that recovery would result in such a violation, and such opinion is provided to NYSE American; or

(iii) recovery would likely cause an otherwise tax-qualified retirement plan, under which benefits are broadly available to employees of the registrant, to fail to meet the requirements of 26 U.S.C. 401(a)(13) or 26 U.S.C. 411(a) and regulations thereunder; and

(b) the Compensation Committee, or a majority of the independent directors of the Board, has made a determination that recovery would be impracticable.

6.2 Deferred Payment Plans

The Compensation Committee may consider the establishment of a deferred payment where recovery is required from an Executive Officer and where the deferred payment plan allows the Executive Officer to repay the Erroneously Awarded Incentive-Based Compensation as soon as possible without unreasonable economic hardship to the Executive Officer, depending on the facts and circumstances; provided that any such deferred payment plan shall be narrowly tailored to the Erroneously Awarded Incentive-Based Compensation being recovered so as not to constitute a personal loan to the Executive Officer that is prohibited by Section 13(k) of the Exchange Act.

6.3 Recovery of Costs

If an Executive Officer fails to repay all Erroneously Awarded Incentive-Based Compensation when due, the Company will take all actions reasonable and appropriate to recover the Erroneously Awarded Incentive-Based Compensation from the Executive Officer, and in that case the Executive Officer will be required to reimburse the Company for all reasonable expenses incurred in recovering the Erroneously Awarded Incentive-Based Compensation from the Executive Officer.

6.4 Other Legal Remedies

Any right of recovery under this Recovery Policy is in addition to, and not in lieu of, any other remedies or rights of recovery that may be available to the Company under applicable law, regulation or rule, or under the terms of any similar policy or agreement in any employment agreement, offer letter, compensation plan, equity award agreement, or similar agreement and any other legal remedies available to the Company.

This Recovery Policy does not preclude the Company from taking any other action to enforce an Executive Officer's obligations to the Company or limit any other remedies that the Company may have available to it and any other actions that the Company may take, including termination of

employment, institution of civil proceedings, or reporting of any misconduct to appropriate government authorities.

7. PROHIBITION ON INDEMNIFICATION

7.1 Prohibition on Indemnification

The Company shall not be permitted to indemnify or insure any Executive Officer against (i) the loss of any Erroneously Awarded Compensation that is repaid, returned or recovered pursuant to the terms of this Policy, or (ii) any claims relating to the Company's enforcement of its rights under this Recovery Policy. Further, the Company shall not enter into any agreement that exempts any Incentive-based Compensation that is granted, paid or awarded to an Executive Officer from the application of this Recovery Policy or that waives the Company's right to recovery of any Erroneously Awarded Compensation, and this Recovery Policy shall supersede any such agreement (whether entered into before, on or after the Effective Date of this Recovery Policy).

7.2 Insurance

The Company will not purchase or pay or reimburse any Executive Officer for any insurance policy to cover losses incurred by any Executive Officer under this Recovery Policy.

7.3 Other Recovery Rights

This Recovery Policy shall be binding and enforceable against all Executive Officers and, to the extent required by applicable law or guidance from the SEC or NYSE American, their beneficiaries, heirs, executors, administrators or other legal representatives. The Compensation Committee intends that this Policy will be applied to the fullest extent required by applicable law. Any employment agreement, equity award agreement, compensatory plan or any other agreement or arrangement with an Executive Officer shall be deemed to include, as a condition to the grant of any benefit thereunder, an agreement by the Executive Officer to abide by the terms of this Recovery Policy. Any right of recovery under this Recovery Policy is in addition to, and not in lieu of, any other remedies or rights of recovery that may be available to the Company under applicable law, regulation or rule or pursuant to the terms of any policy of the Company or any provision in any employment agreement, equity award agreement, compensatory plan, agreement or other arrangement.

8. AUTHORITY OF THE COMPENSATION COMMITTEE

8.1 Engagement of Professional Advisors
